Koreutica with Treedom

Our company has been engaged in a constant search for concrete activities for years

to reduce the environmental impact that manufacturing industries produce against Nature: new materials, energy saving, less use of plastic.

This is why the partnership began with Treedom, the most important green community in Italy.

Our catalog will be printed in just 1,000 copies and made available for free online.

Together with Treedom, to further reduce the impact on the printing of catalogues, we have planted 20 new trees between Africa and South America. Those of our customers who still wish to receive the printed catalog will receive a higher charge than in the past, which we will use to continue creating our forest, in defense of Nature.re a creare la nostra foresta, in difesa della Natura.

Treedom

Il primo sito che permette a persone ed aziende di piantare alberi e seguire la storia del progetto a cui daranno vita, portando benefici sociali ed economici alle comunità rurali coinvolte. Ogni singolo albero viene piantato, fotografato, geolocalizzato ed ha una propria pagina online, da condividere con chiunque per mostrare il vostro impegno per l'ambiente.
